RIE-KEN'S WAY OF THE MANGA 5

Sasa Ken didn't know the details of amateur manga, including entering the storyboard first. I went straight to drawing name-level drawing paper and had to separate my story within the number of pages I had to turn in.

At the mistakes Uraga is making on Rie-Ken's Manga School (currently being serialized in Jump-ex!) are mistakes that I actually did.

Make my debut!

How important is your opening scene?

As for the result of the first manga I drew at night while entertaining visitors...

Look forward to the next volume.

See you in volume 1 ♪
